

## **CITY MANAGER UPDATE**

Greetings to all residents, businesses and visitors of the City of Jurupa Valley,

I would like to announce that the *City Manager Update* is the first in what will be an ongoing communication provided on a periodic basis for important information related to the City. As this new City continues to grow and establish itself, it is my hope that all of you will be active participants in ensuring the success of the City as we strive to provide the level of services necessary to achieve a high standard of quality of life for everyone. It is my responsibility as your City Manager to keep you apprised of important activities and issues in which City Hall is engaged so you will have a complete understanding of how the City is addressing them and how you can help. This update will focus on the City's newly activated website.

Our goal with this new website is to provide as much information as possible in a concise and easy to use format that will allow everyone to access information, forms, documents, and related materials for working and interacting with City Hall. Within this website, you will find information on the City, the City Council, the various Departments and services provided, links to various organizations and activities the City engages with, important informational items, and meeting notices and agendas.

This website will be evolving over time as we enhance the various features within the site. As part of that effort, we need your feedback! I would ask that as you look through the website, please let us know your thoughts on what is good and what needs improvement. Our goal is to ensure our website is as easy to utilize as possible so you can obtain the information you need quickly and smoothly.

In conclusion, I hope you find the forthcoming periodic updates useful. Please be sure to contact City Hall for any questions you have concerning City functions, problems that need addressed, or assistance in activities you are engaged in requiring working with City Hall.

Sincerely,

Gary Thompson  
City Manager
